## INSTRUCTION MANUAL NEURAL SERIES: BOX 1 + U 1 ALUMINIUM

November/2024

# NEURAL SERIES

## Neural Aluminium Frame

## Neural Aluminium Frames

### Marine-Grade Aluminum: Superior Durability and Quality

Marine-grade aluminum is widely recognized for its corrosion resistance, even in highly humid environments or those exposed to salt air.

Lightweight and durable, this material combines high performance with a refined aesthetic, making it ideal for applications requiring premium finishes and long-lasting reliability. Additionally, it is 100% recyclable, contributing to a more sustainable and high-standard product.

### Available colors and finishes:

- Matte aluminum
- Brushed aluminum
- Matte black
- Brushed black
- Matte gold
- Brushed gold

# CAIXA 1+U1 ALUMINIUM

## NEURAL SERIES

This equipment must be used in home automation systems respecting its functions and the power limits described in this manual. Always with technical guidance.

Note: For the product to work properly, we advise you to always use it with approved products.

### WORK CONDITIONS

Working temperature (ambient) 1° to 60° C

### SPECIFICATIONS

Box to be embedded in the wall. Receives the "U" for installation of up to 4 Neural Aluminum modules.

### DIMENSIONS BOX 1

Final measure box 1  
H 679 X W 447 X D 128 mm

Cutting measure box 1  
H 698 X W 468 X D 130mm

# CAIXA 1+U1 ALUMINIUM
