NEURAL SERIES

Neural Aluminium Frame

Neural Aluminium Frames

Marine-Grade Aluminum: Superior Durability and Quality

Marine-grade aluminum is widely recognized for its corrosion resistance, even in highly humid environments or those exposed to salt air.

Lightweight and durable, this material combines high performance with a refined aesthetic, making it ideal for applications requiring premium finishes and long-lasting reliability. Additionally, it is 100% recyclable, contributing to a more sustainable and high-standard product.

Available colors and finishes:

- Matte aluminum
- Brushed aluminum
- Matte black
- Brushed black
- Matte gold
- Brushed gold

W-BLIND G ALUMINIUM

NEURAL SERIES
